ABOUT US

WHAT WE DO

Quick Deal Supply. Foundation at UAE in 2007 as a pioneer in the lubricating oil industry, our company has been contributing to social development with its business activities ranging from product development to marketing. The activities have always been based on the company's active pioneer spirit, full of enterprise, that foresees the needs of industrial circles, as well as the technologies accumulated during its high experience staff.

The background of the entire page is a photograph of industrial machinery, specifically large, polished metal pipes or ducts. These pipes are arranged in a complex, overlapping fashion, creating a sense of depth and scale. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the metallic texture. Overlaid on this image are several large, semi-transparent geometric shapes in shades of purple and black, which cut across the frame diagonally and horizontally, adding a modern, graphic design element.

WHY CHOOSE US

We aim to be your “one stop shop”, we mean not just a variety of products and services, but we offer a number of service and ethics standards which include: high quality of products, timely services, fair prices, professionalism , commitment and a strong will to provide the best services on the market to our customers.

OUR MISSION

QuickDeal Supply will always aim to be a trusted and reliable partner to serve all customers' base oil needs including outsourcing, storage, blending, shipping and distribution across the world. We continuously work to expand our product portfolio, by establishing cooperation with new supply partners and additive producers, we invest in storage and logistics assets to link origination regions to consumers destinations all over the world through modern and easily accessed hubs.

SERVICES

Base oil

Quick Deal Supply is a large independent trader of base oil products. We have effective logistical and storage capability working with our partner companies. As a global trading house, we have detailed insight of large scale and small-scale trends. As physical traders, we gain direct experience with the products and ensure the highest quality for our customers. Our global networks and trading offices are located in the major oil trading regions, this gives us the ability to identify the change and evolution of the base oil market. Our base oil trading business has good and effective relationships with very reliable producers and refiners.

Base oil

Quick Deal Supply is a well organized Industrial oil supplier based in UAE. It is well-known for supplying all variants of oil demands that range all business sectors.

Quick Deal Supply Co mainly deals with oil traders across the globe and has gained extensive connections with the end-users in the region through dynamic marketing and inclusive connections. This viewpoint and business tactics led us to target other important aspects of markets in the world.

Additives

Quick Deal Supply offers you an entire range of intelligently designed lubricant additives, encompassing heavy duty diesel oils, passenger car motor oils, automotive gear oils, automatic transmission fluids, a and variety of other automotive need-specific packages. Our family of lubricant additive packages is suitable for both, on road and off-road applications.

Lubricants

We are a fast-growing company with our parent companies in the UAE. Being the manufacturers and sole distributors of Many Lubricants Brand, we have the great chance to introduce our exclusive range of lubricants, formulated with a unique virgin base blend.

We are a dedicated team made up of experienced enthusiasts with deep roots in the Automotive and Lubricant industry, our individual team members all have diverse sets of skills contributing to a common cause, "creating an oil brand whose performance speaks for itself".

Together we have combined our range of skills and expertise acquired over the years. We are equipped to produce premium quality lubricants, so when it comes to engine oil rest assured your engine is in safe hands.

As modern engines have become more technologically advanced with various performance boosting mechanisms all of which have sensitive oil requirements, superior oil quality is essential to sufficiently lubricate crucial engine parts during high-pressure combustion across wider temperature ranges.

The chemists and oil technicians on our team always ensure that we maintain our high standards of base oils and additives in order to guarantee consistent quality. Behind the scenes, our engineers continually monitor engine performance and collect quantitative data for research purposes in order to further our company's vision in lubricant superiority.

We maintain a valued relationship with all our customers, ranging from large businesses to even the individual car owners. We always take on feedback and try to give our customers the best service we have to offer.

Our research demonstrates that constant use of poor-quality oil will continually cause irreversible damage to internal engine parts and cost more fuel in the long run. We also know that certain engines may underperform if the oil isn't strong and thin enough at the same time. Otto Lube has been specifically formulated to boost the performance of such engines.

Toll Blending Services

Quick Deal Supply can provide custom blending of all type of automotive and industrial lubricants, we have the capability to meet your private blending, packaging and labeling needs.

Our proven expertise and commitment to quality make us ideally suited to produce your LUBRICANT formulation, either from your formula or one designed by our experts based on your specific requirements. Quick Deal Co has a long history of providing Toll Blending which has been utilized by many multinational brands for a variety of Automotive, Industrial & Marine products.

Plastic polymer

Polymer is a large molecule formed by many micro-molecules. Polymers take form in synthetic plastics such as polystyrene. Polymers are created via polymerization of many small molecules, known as monomers. There are many uses of polymer such as synthetic rubber, phenol formaldehyde resin, neoprene, nylon, polyvinyl chloride, polystyrene, polyethylene, polypropylene, polyacrylonitrile, PVB, silicone, and many more.

Batteries

We have the complete range of maintenance-free automotive batteries from well-known battery ranges.

Tyres

The most important part of a car, are its tyres. Browse through our full line of high performance tyres for all vehicles and all seasons

Achilles is one of the premium tyre brands of Indonesia with a very rich history. At Quick Deal supply, we are supplying and distributing an extensive range of Achilles tyres such as Achilles Platinum, Achilles Desert Hawk Uhp and Achilles Atr Sport to assure high performance of your fleet.

Achilles is made in Indonesia by PT. Quick Deal Supply which was established in 1991. Launched in 2005 and starting out in the replacement industry, Achilles has developed a trusting relationship with affiliated companies becoming OE providers for Mitsubishi motors, Hyundai, Daihatsu, Hino and proton in Indonesia. Achilles was able to capture 15% of market share in Indonesia and additionally, had market coverage of 89 countries by the end of 2012. As a growing factory, Achilles is committed to providing the best tire for all the markets around the world

Spare Parts

We supply an extensive range of spare parts for all your automotive parts and accessory needs. These include brake pads, brake shoes, fuel pumps, shock absorbers, horns and rubber parts.

Quick Deal supply is your one-stop solution and a perfect home for Asimco Brake Pads, Brake Shoes and other spare parts. Quick Deal is a leading supplier and distributor of Asimco Brake Pads and Asimco Brake Shoes across the globe. Browse through the product information and specifications mentioned in the Asimco Brake Pads Catalogue for more details. Asimco has established a precedent for developing and manufacturing premium friction products. Asimco is highly recognized for its excellent quality products since its introduction to the automotive market in 2001.

Products under its portfolio include brake pads, brake shoes, fuel pumps, brake fluid, disc rotors and shock absorbers. Over the years, Asimco's quality has supported the strong growth in market share and is sold in almost 65 countries. Asimco brake pads and shoes are designed to give drivers amazing brake feel with the longevity you expect from a premium brake product. Asimco product is sold as a kit when servicing a vehicle; it includes premium shims manufactured by MSC to reduce braking harmonics to almost an inaudible level. Where applicable, the hardware is anodized to increase the life of accessory components to prevent rust and stop various road conditions from degrading the lifespan of the product.

Filters
